PROFESSIONAL SUMMARY

Computer Engineering graduate with experience in system development and technical troubleshooting. Knowledgeable in web development and database management, with a strong foundation in programming, problem-solving, and system enhancement. Adaptable and detail-oriented, with the ability to collaborate effectively and continuously learn emerging technologies.

PROFESSIONAL EXPERIENCE

FULL-TIME ASSOCIATE SYSTEMS DEVELOPER — Oct 2026 - Present

Shimadzu Philippines Manufacturing, Inc.

- Participate in system development and enhancement to support business and operational requirements.
- Perform system maintenance, troubleshooting, and bug fixing to ensure system reliability.
- Conduct system testing and quality assurance to identify and resolve issues.
- Collaborate with team members in system development activities and project implementation.
- Continuously explore and apply new technologies and development practices to improve system functionality.

INTERNSHIP - ENGINEERING DESIGN / IT INTERN — Feb 2026 - May 2026

Total Power Box Solution, Inc.

- Prepared and updated electrical design documents using AutoCAD and Vertex G4.
- Created and modified 3D electrical panel and switchgear models.
- Performed basic IT troubleshooting for printers, scanners, and WiFi connectivity issues.

TECHNICAL SKILLS

Programming & Web Development: HTML, CSS, C#, JavaScript, Node.js, Express.js, C++, Python, Java
Database Management: Microsoft SQL Server, Microsoft Access, SQL, CRUD Operations
Development Tools: Visual Studio Community, SQL Server Management Studio
Embedded Systems: Arduino, NodeMCU, Raspberry Pi
AI & Image Processing: MobileNetV2 (CNN), TensorFlow Lite (TFLite)
Networking & Simulation: Cisco Packet Tracer
IoT & Mobile Development: Blynk IoT, MIT App Inventor
Design Software: AutoCAD, Vertex G4

CERTIFICATIONS

IT Specialist – Software Development (Certiport) — **Oct 2025**
Score: 700 (First Take, Top 3 Scorer)

IT Specialist – Networking (Certiport) — **Jun 2025**
Score: 760 (First Take, Top 2 Scorer)

EDUCATION

Bachelor of Science in Computer Engineering — Jul 2022 - Aug 2026

National University – Dasmariñas

- UAEB Scholar, Consistent First Honor Dean's Lister, Ranked 1st overall in the department four times.
- Participant - Analog Devices Philippines Electronics Quiz Show, Team A Captain (2025)
- Participant – ICpEP R4A Robothon (2024)
- Most Outstanding Student in Mathematics (2023)
- Participant – ICpEP R4A Quiz Bowl (2023); P&G PEAKathon (2023)

PUBLICATION

15th IEEE Symposium on Computer Applications and Industrial Electronics — **Jul 2025**

P.J.P. Silla, R.M.S. Santiago, M.L.F. Gaite, J.K.N. Romasanta, and C.L. Santiago, "AgriDryTech: Development of an Automated System for Rice Drying and Storage" 2025 15th IEEE Symposium on Computer Applications and Industrial Electronics (ISCAIE), DOI: 10.1109/ISCAIE64985.2025.11080788. (Scopus-Indexed - 2026)
